The art of reading and writing haiku has been taught at Millikin University for over a decade, resulting in student publications in various literary journals. This anthology includes 264 of the best haiku written by Millikin students and alumni. Each has been carefully selected to represent this haiku community, and to share the wonderful gift of haiku.

The Millikin University haiku studies program was recognized by the editor of *The Haiku Anthology*, Cor van den Heuvel. In his overview of featured authors in his new anthology, *Baseball Haiku: The Best Haiku Ever Written About the Game* published by W.W. Norton & Company in 2007, editor Heuvel wrote: "Randy Brooks is Chair of the English Department at Millikin University in Decatur, Illinois, where he also oversees what is undoubtedly the best English-language haiku program of any school in the country."
